Legislative Advocacy

Budget Watch— CAMPS monitors the budget process to assure adequate funding and payment of HME services. The association keeps members updated on the timeliness of a budget adoption, and advocates for provider payment in the event of a delay.

Bill Tracking— Hundreds of new bills are introduced every year in California. CAMPS monitors proposed legislation to pinpoint any adverse affects to the HME industry. All efforts are made to support positive legislation, as well as oppose legislation that would negatively impact the HME industry.

Licensing Requirements— CAMPS is familiar with California HME licensure and regulatory requirements. We continue to provide this information to our members, and assist them in the process when needed.

Regulatory Advocacy Efforts- CAMPS is the HME industry's key line of defense when dealing with Medi-Cal issues. CAMPS members can expect defense in dealing with Payment Rates, Provider Enrollment, Treatment Authorization Requests and Claims processing.
